## The Story of Lester Knight Chaykin

Beneath a sky awash with lightning strokes, a Ferrari raced along rain swollen streets. Lester Knight Chaykin was behind the wheel, listening to heavy metal riffs on a Classic Rock station; he had changed the dial when the other station played a flash flood warning one too many times for his liking. Lester could feel the speed of the car as a taut pressure against his entire body. He enjoyed it — Lester had never done anything slow in his life. It had taken him only four years to get his Doctorate; it had taken him a mere six weeks to write his thesis; and he had brought the world's most complex scientific experiment from concept to prototype in just sixteen months.

And now it was time to put the pedal to the metal and see how fast his experiment could move.

A lightning bolt split a tree in a field thirty yards away. Lester didn't notice it.

Bringing his Ferrari to a screeching halt, Lester suppressed an urge to run into the elevator. A man who was about to solve the fundamental mysteries of the universe had to learn dignity sooner or later. But Lester enjoyed living at a fast pace. The slowness of the elevator irritated him. The unnecessary delay of the security door deepened his frustration. He waded through the mess of papers, electronic cords, empty soft drink cans, and pizza boxes that was his workspace. Great minds are rarely tidy, he had once said. Lester flipped a switch and with a beep his computer jerked to life. He entered his password — more unnecessary security — and then input the parameters of his

experiment. He waited for the computer to compile the data; a computer could calculate a trillion times faster than mortal man and it still would not have been fast enough for Lester.

The storm outside struck the building twice. Again, Lester did not notice.

The experiment was finally on-line. Atomic particles were driven in a magnetic field to nearly light speed, and then smashed into each other; from its X-ray emissions, Lester would be able to reconstruct what happened when the universe was born. But other forces would be at work on this experiment tonight.

As Lester leaned back and swallowed a cold soft drink, a bolt of lightning struck the building again. The bolt charged the particles that whipped around the atomic accelerator. Something extraordinary happened. The particles fused and exploded, opening a hole in time and space. The rift expanded like an explosion, breaking through the wall, and engulfing Lester. He had not expected anything like this. He felt like he was in a car that was suddenly accelerating to light speed; the pressure was unbelievable. The air had become lightning, and then with a flash, burst into nothingness. Only an empty space was left in the laboratory where Lester had been...

## Controls

### **LEFT/RIGHT control pad:**

Moves you to the left and right.

### **DOWN control pad:**

Makes you crouch. It can also be used to pick up items. If you are swimming or on an elevator it moves you down. If you are standing on a teleporter you will be teleported down.

### **UP control pad:**

If you are swimming or on an elevator it moves you up. If you are standing below a teleporter you will be teleported up.

### **Button A:**

Used mostly for attack. If you do not have a weapon you will kick. If you have a gun you will shoot. It can also be used in combination with the LEFT / RIGHT control pad to run.

### **Button B:**

Jump.

### **Button P:**

Pauses the game.

### **Button X:**

Used in conjunction with Left and Right buttons will take you to the Menu Screen.

## Getting Started

Turn on the 3DO system and insert the *Out of this World* CD. After the 3DO logo vanishes you may press any button to get to the Start / Continue screen. You may choose either Start or Continue by pressing up or down on the control pad. Select 'Start' and press 'B' to start the game. Once the game has started, push up on the control pad to swim to the surface of the water.

## First Scene Walk-through

**WARNING!!! THIS SECTION CONTAINS HINTS THAT GIVE AWAY PARTS OF THE GAME. ONLY READ THIS SECTION IF YOU ARE STUCK!**

Press up on the controller pad to swim to the surface of the water. Once you get to the surface, walk to the right to the next screen. Hostile leeches will attack you. You must kill them by kicking them. You can also crouch and attack at the same time to kill a leech that is farther away from you. Be careful not to let any land on you.

After killing all the leeches on the second screen, walk to the next screen to the right. There will be many more leeches. You should destroy all leeches on these two screens before proceeding to the next screen to the right.

After entering the fourth screen, walk to the right until the beast attacks. As soon as you see him, go to the left and hold down the A and B buttons. This will make your player run/jump away. Keep running to the left until you get to the screen with the hanging vine.

Keep running up to the edge and jump to the vine. You will hang there for a moment until the vine breaks. Then you will be swung back to the right and land on the next screen. The moment you land, start running to the right. Keep running all the way across all the screens. At the end of the last screen you will be saved from the beast by the inhabitants of this world. But they may not be as friendly as they seem....

## Hints

**IF YOU ARE STUCK, READ THESE HINTS AND THINK IF ANY OF THEM APPLY IN YOUR SITUATION.**

Make sure that you do not forget to find and pick up your gun.

Do not leave your buddy behind.

There are more ways to destroy guards than just shooting them.

Before leaving the underground city make sure that you save your buddy.

It is not ALWAYS wise to shoot the guards.

Deactivate all power circuits.

You can make a force field with your gun by holding the button for a short time and then releasing it.

You can fire a super shot by holding down the button for a longer period of time.

# Limited Warranty

## **INTERPLAY LIMITED 90-DAY WARRANTY**

Interplay warrants to the original consumer purchaser of this computer software product that the recording medium on which the software programs are recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Interplay agrees to replace, free of charge, any product discovered to be defective within such period upon receipt at its Factory Service Center of the product, postage paid, with proof of date of purchase. This warranty is limited to the recording medium containing the software program originally provided by Interplay and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied warranties applicable to this product are limited to the 90-day period described above. Interplay disclaims all responsibility for incidental or consequential damages.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

### **Lifetime Warranty**

If the recording medium should fail after the original 90-day warranty period has expired, you may return the software program to Interplay at the address noted below with a check or money order for \$5.00 (U.S. currency), which includes postage and handling, and Interplay will mail a replacement to you. To receive a replacement, you should enclose the defective medium (including the original product label) in protective packaging accompanied by: (1) a \$5.00 check, (2) a brief statement describing the defect, and (3) your return address. If you have a problem with your software, you may wish to call us first at (714) 553-6678. If your media is defective and a replacement is necessary, U.P.S. or registered mail is recommended for returns. Please send the defective disk(s) only (not the box) with a description of the problem and \$5.00 to:

## **WARRANTY REPLACEMENTS**

**Interplay 17922 Fitch Ave., Irvine, CA 92714**

### **System Upgrades**

Interplay has a system upgrade policy. At any time after purchasing any Interplay product, you may send us your original CD and a check for \$25.00 (U.S. funds) and we will replace your CD with the version for another computer system that you specify. (This price is subject to change.)
