Medical Precautions

1. Physical activities involving regular repeated movements of the wrists, hands and/or fingers may possibly cause repetitive stress injury. Such injury may also affect muscles in the arms, wrists, hands, fingers, shoulders and neck, chest and abdomen, and the legs and back.

2. There have been reports that some people may experience epileptic symptoms or even seizures while concentrating on flashing lights. It is possible that persons with no previous epileptic experiences may, nevertheless, have an undetected condition. To avoid a possible medical problem, if you have an epileptic condition, consult your physician before playing video games or any other visually intensive software products.

To avoid either of these situations, and as sound practice, if you should use this equipment for an extended period of time, it is suggested that you take periodic breaks of 10-15 minutes each hour. Unit should be used in a brightly lit room. Operating in a close distance to the TV should be avoided.

In any event, stop using the Interactive Multiplayer and consult your physician if you detect involuntary muscle movements (such as twitching), altered vision, mental or visual confusion, convulsions, muscular pain, numbness of fingers, palms or other areas.

Prologue:

Alex Hawkfield was an ordinary young man who was living in a small quiet town.
One day, he found an old man who was almost dead lying on the street. Most of the people ignored him because everyone could see that the old man would not survive. Among those people, Alex was the only one who actually took the old man to his own house and took care of him.
A few days later the exhausted Alex was falling asleep by the old man when suddenly he heard a deep strong voice...
"Wake up, Alex..." When Alex opened his eyes, there was that old man standing in front of him. His features were different from a few minutes ago. The old man seemed like he had never been ill before.

As the old man looked at Alex who was shocked, he said "Alex, I can see that your heart is full of kindness. You have potential to make this world better. If you try, you are capable of becoming a king. Would you like to try your own power and unknown potential that you have inside?" Alex didn't know how to answer, but in a second he was moved by his own curiosity.
Before Alex could say a word, the old man knew that Alex was ready for it. The old man swung his cane and the room was filled with lights. The lights were so bright that they made everything disappear and Alex's long trial had begun.

**How to start this game:**

After you turn the 3DO on, the title comes up. Press the "P" button to move to the prologue. You will see three crystals colored in red, yellow, and blue. Each crystal represents sky, land, and water. Choose the one crystal that you wish to start with then press the A button to start the game. There are 48 different endings possible. It depends on which theme (sky, land, or water) and how well you perform in this game which ending you will reach.

The purpose of the game is to collect seven different crystals from seven different stages. The less mistakes that you make during this game the better the ending you will create.

**Game Over and Continue:**

You have 3 lives and 2 opportunities of continuing. (total of 9 lives) If you don't collect all crystals within these 9 lives, your game will be over.

**Compact Disc Usage Precautions**

To open the case, gently press both sides of its top.

To remove the CD from the case, press the center holder and lift the CD, holding by the edges.

To return the CD to the case, insert the CD with the label facing upward, and press downward at the center.

If the surface is soiled, wipe gently with a soft, damp cloth (dampened with water only). Always move the cloth directly outward from the center of the CD, not in a circular motion.

Do not use record cleaning sprays, benzine, thinner, static electricity prevention liquids or any other solvent.

Do not write on the surface of the CD with a ball point pen or other writing instrument.

Be sure to store CDs in their cases to protect them from dust, scratches, and warping.

Do not place or store CDs in the following places:
- locations exposed to direct sunlight, humid or dusty locations.
- locations directly exposed to a heat outlet or heating device.
