# HOW TO PLAY SPEED BUGGY

## OBJECTIVE

Drive your race-tuned SPEED BUGGY over 5 of the roughest courses ever devised for 4 wheels. You must race across terrain littered with boulders, trees, brick walls, and fences while following the rough outline of the track through narrow valleys, across even narrower bridges, and through dark tunnels. Fasten your seatbelt for the ride of your life!

## GAME PLAY

- Pass through the gates to gain points. Driving through the dangerously-placed "time" gates will give you an additional 2 seconds on the next leg.
- Collect the flags for more points. If you pick them up in the specified order, you will receive bonus points as well.

- Avoid hitting the fences, walls, trees, etc., as they flip your buggy over and slow you down.
- You are competing against the clock, and you will be disqualified from the race if you do not complete each leg in the allotted time limit. So don't waste time – push that pedal to the metal!
- Try jumping obstacles by hitting the logs that lay across the track, which will send your buggy soaring through the air.

- Driving over tree stumps and small rocks will tilt your buggy onto 2 wheels, allowing you to squeeze through narrow gaps. See how long you can keep your buggy in this trick position. (Hint: Don't oversteer!)
