IMPORTANT BEFORE YOU BEGIN . . .

Copy Utility — To create a Scenario disk, prepare, in advance, a Com64 formatted disk according to your computer's instruction manual. Then load the Exodus program disk. After the "Exodus" appears at the top of the screen, press "C", then follow the prompts. (The Scenario copy utility takes 12 minutes.)

*Because the Com64 disk drive tends to overheat, allow it to cool completely after you copy the player disk. Then you may proceed with game play.

To load the program, type:

LOAD "*"8 <return>

When cursor returns to the screen, type:

RUN <return>

Note: The Com64 version requires four minutes loading time.
