### Running:

If Junior is standing on a girder or platform, press the Control Stick left or right to make him run.

## Keypad

## Side Buttons

Either Side Button makes Junior jump. Press a Side Button when Junior is standing and he makes a standing jump. Press a Side Button while Junior is running and he makes a running jump.

In the Jump Board scene, Junior can make a Super Jump. First, make Junior perform a running jump to the Jump Board. When Junior touches the board, press a Side Button.

If you press it at just the right time, Junior makes a Super Jump.

# JUNIOR'S JOURNEY

DONKEY KONG, JR.<sup>™</sup> Game offers you four challenging adventures. In the first, Junior climbs and swings across vines and avoids dangerous creatures to reach a flashing key and release his Papa.

If Junior succeeds, his next goal is to push keys to the tops of long chains, once again avoiding clever opponents. If he completes this test, he climbs the vines again — but this time it's tougher!

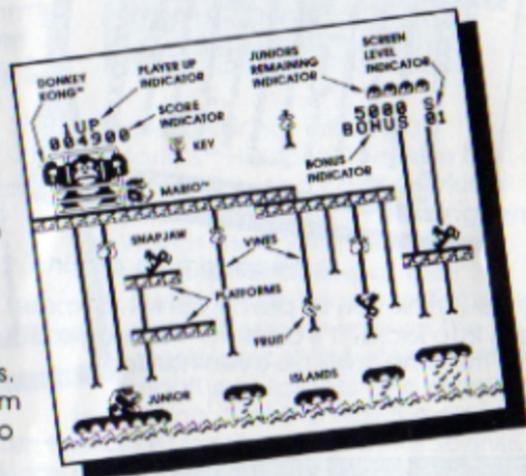

Then Junior has a try at the high-flying Jump Board. If he survives these trials, it's on to Mario's<sup>™</sup> Hideout, where sparks and water droplets threaten his pursuit of the key. Can you help Junior avoid all these dangers to capture the key and free his Papa?

# HERE'S HOW TO PLAY!

## Start climbing!

Junior starts in the lower left corner of the jungle. Make him jump to one of the vines above him, then start climbing. Remember — Junior climbs up two vines faster than he climbs one. But he can't climb through a platform. Keep Junior to the left of the first platform, then help him jump onto it! Watch out for red and blue Snapjaws crawling on vines and platforms. Touch a fruit directly above them to knock them out of play. Try to get two or three Snapjaws at a time to earn more points.

## Capture the key.

Junior must capture the flashing key at the top of the jungle, but Mario™ sends Snapjaw after Snapjaw to try to stop him. Make Junior run, jump and climb to the highest platform.

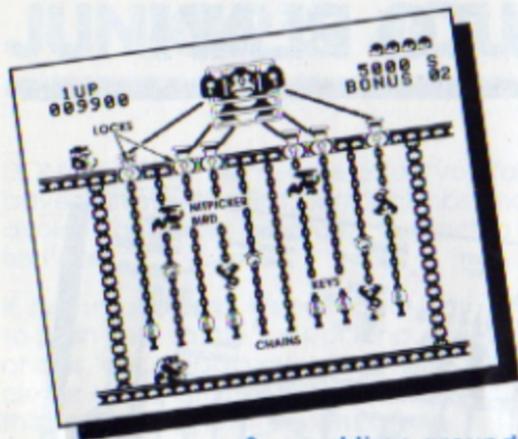

Leap over the Snapjaws for points. If Junior misses the key and falls onto Mario™, he is eliminated. A new Junior must start all over again.

## Bonus!

While Junior climbs, the Bonus Timer counts down. When he reaches the flashing key, the number appearing in the Bonus Timer is added to your score. But time can work against you. If Junior fails to capture the key by the time the bonus runs out, he is eliminated. A warning sounds when time gets short.

## Chain champ.

Now that you've captured the key, go on to the next adventure. Junior must push keys up long chains and into locks to free his Papa. Snapjaws still chase Junior. But Mario™ has a new trick: he sends Nitpicker birds after Junior! Nitpickers swoop off Mario's™ platform to catch Junior on the chains. Watch out!

## Second time around.

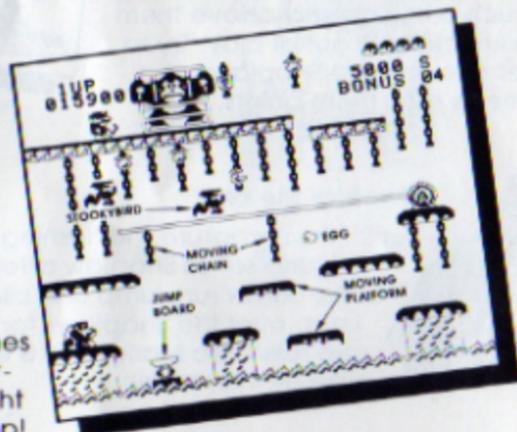

So you think you're pretty clever. Surprise! After Junior has pushed all keys into locks, it's back to the jungle. Time to climb the vines again — and this time it will be even harder!

## Bounce right, bounce high!

Once Junior makes it through the jungle, it's time to jump! To begin this episode, Junior must perform a running jump to the jump board. When Junior touches the board, press either Side Button. If you press it at just the right time, Junior makes a Super Jump! Time the jump so that Junior lands on a moving platform. Then make him jump to a moving chain. Don't slam Junior's head on a platform. That will eliminate him!

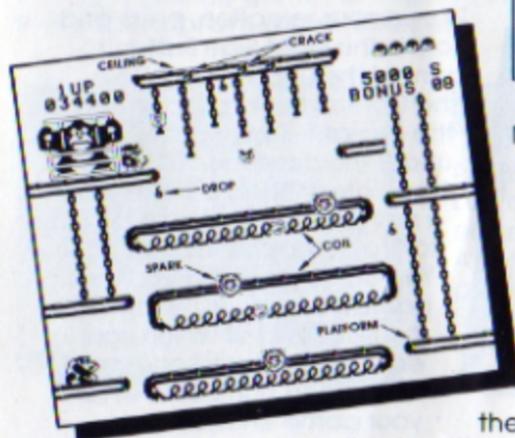

## Birds and eggs.

Beware of the Stookybirds as you climb around the chain conveyor. In Skill Levels 2-4, Stookybirds drop eggs to eliminate your struggling Junior. Climb above the birds and try to eliminate them with fruit. Swing to the far right to reach the highest platform. Then try for the key. If Junior falls, and he's lucky, he can grab a vine or bounce off the jump board. Then try, try again!

## Nothing is easy!

Even though Junior makes it through the Jump Board trials, success doesn't come that easily! He returns to the chains, then moves on to the jungle, and finally back to the chains again before pressing on. Will Junior's stamina hold up?

## Water and electricity don't mix!

Now Junior has arrived at Mario's™ Hideout. This time he must climb and cross sparking coils to capture the flashing key. Watch the sparks as they zip around the coils. Got their rhythm? Don't jump yet. You've got to keep an eye on the water drops! They form at the mouths of spigots and cracks in

the ceiling. Make Junior jump to the coils when the coast is clear. As in other scenes,

Junior can hop over sparks or knock them out of action with a piece of fruit. Beware of sparks above Junior. They're just as deadly as the ones below!

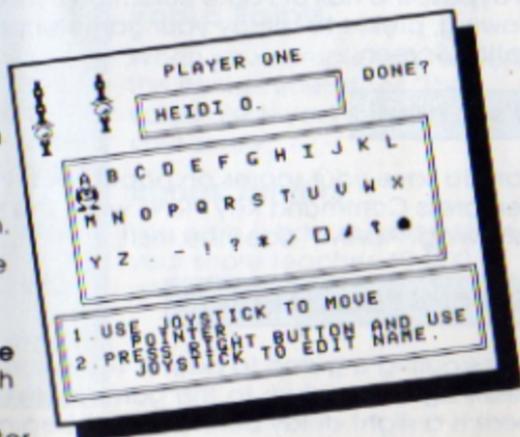

## More trials, more work.

If Junior conquers Mario's™ Hideout and captures the key, he continues his adventures in the same sequence, starting back in the jungle once again—but each time they're harder!

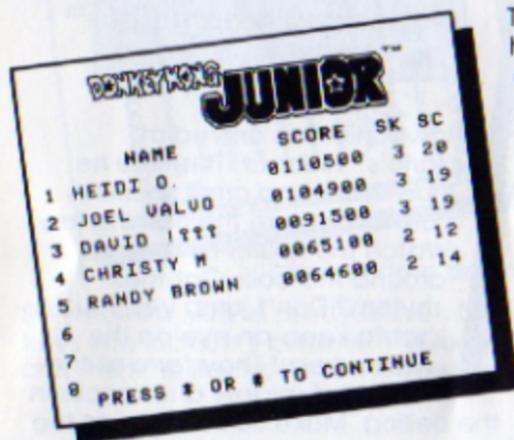

## Put your name in lights!

If you're one of the game's high scorers, you can record your performance on the DONKEY KONG, JR.™ Hall of Fame Screen.

After your game has ended, the Hall of Fame Selection Screen appears. To enter your name, press the Control Stick **you have used** until Junior moves beneath the letter of your choice. Then press the Left Side Button to enter the letter. You can select up to 12 letters in the name box.

To change letters in the name box, **press and hold in the Right Side Button**. This gives you control of the upper cursor (in the name box). Use the Control Stick to move the cursor beneath the letters you wish to change. Release the Right Side Button and use the Control Stick to move Junior to select a new letter. Press the Left Side Button to enter the new letter in the name box.

To end your selection, press and hold in the Right Side Button to control the upper cursor. Use the Control Stick to move it to the far right. Junior will appear under the question "DONE?" If you are finished entering a name, press the Left Side Button to complete the screen. Your score is preserved. The game automatically records the Skill Level at which you earned your high score and the Screen number in which your game ended.

If two players achieve record-breaking scores in the same game, Player 1 enters a name first.

**NOTE:** If the Hall of Fame screen is filled with eight names and your score is not high enough to be included, only the Display Screen will appear after your game has ended. Press Keypad Buttons 9-8-9 in sequence to erase **all** names from the Display Screen and enter new names as described above.

To bypass the Hall of Fame Selection Screen at any time while it is showing, press \* to replay your game or press # to return to the Game Option Screen.

### It's a print!
