SHOWDOWN WITH D.N.M.E.

Neo City, not long ago voted most livable city in the U.S., has fallen into the hands of D.N.M.E., immoral scum whose reign of terror has left no one untouched.

In their most recent caper, D.N.M.E. has kidnapped the city's chief commissioner. His only hope is C-Force, an independent law enforcement group made up of National Special Forces alumni.

But bringing down D.N.M.E. won't be E.Z. It'll take cleverness, creativity and calculated risks. But then, they don't call them the C-Force for nothing.

CONTRA FORCE IS THE NAME, STRATEGY IS THE GAME.

Your mission is to assume the role of Commando Burn and his men, Smith, Beans and Iron. Each man is equipped with unique weapons and skills. Fortunately, you can change commandos at any time to match their specialties to the task at hand. Choosing the right man for the job is essential.

In addition, you have a choice of Battle Plans. These allow you to call on another commander to join you when the situation calls for it. But he'll only stick around for a few seconds. So select your Battle Plans wisely.

To defeat D.N.M.E., you must successfully complete five missions. Some of the enemies and objects you blow away will reveal weapons and items critical to achieving each mission's objective. Collect as many as possible because every time you do, a power surge will register in the gauge at the bottom of the screen allowing you to select a more powerful weapon. At the end of each mission you will come face to face with a boss enemy. Conquering it will be your toughest test. Fail, and it's back to the beginning of the mission.

Each commando starts out with three lives. If you lose all three you're done for, but fortunately you can choose to continue. If you do, you'll then be at the beginning of the level you were just in. Select players wisely because each has unique skills that can help you survive longer so the battle can rage on and on.
How To Begin Your Confrontation
With D.N.M.E.

Insert your Game Pak into the NES™ and turn it on. Press the START BUTTON. The Player Select screen will appear. Choose the command you wish to control by pressing the CONTROL PAD Up or Down. Choose the TP character with the TP controller. In one player mode, you can choose one partner at a time. When playing with two persons, choose the TP character with the TP controller. A second player can join in at any time during the game. But the same command cannot be chosen by both players. In two player mode, partner commands cannot be chosen. Press the START BUTTON and the action begins. To change commands or engage a Battle Plan, press the START BUTTON to pause the game and go to the Command Select screen. If you want to change commands, first use the CONTROL PAD to move the TP cursor to the command currently being used. Then press the CONTROL PAD Left or Right to change his status to "NO USE." Now move the cursor to the command of choice and use the CONTROL PAD to select "1 PLAYER" status. Then press the START BUTTON again to resume action.

To engage a Battle Plan, move the TP cursor to another command and press the CONTROL PAD Left or Right until the desired Battle Plan appears. Then re-enter the battle by pressing the START BUTTON again. These instructions are the same for the TP player in the 2 Player mode.

You can also change weapons whenever you want to by pressing the SELECT BUTTON.

CONTROL UNDER PRESSURE

START BUTTON: Press to enter the Player Select and Command Select modes. Press again to return to game play.

SELECT BUTTON: Press to select weapon when you've collected enough weapon power-ups.

A BUTTON: Press to jump. Press with B BUTTON to jump and shoot.

B BUTTON: Press to shoot. Press while holding CONTROL PAD down to crouch and shoot.
THE BATTLE SCENE

YOUR BATTLE PLAN OPTIONS

Front Cover Partner is positioned in front to protect against enemies and traps.

Back Cover Partner is positioned behind to protect your rear and flank against enemies or traps.

Round Cover Partner is positioned at side to cover your periphery against enemies and traps.

Front Keep Partner is positioned in front to fight enemies only.

Back Keep Partner is positioned behind to fight enemies only.

Assist Cover Partner is positioned behind, and shadows every move you make.
YOUR MISSION ARSENAL AND SPECIAL FEATURES

**Time Bomb**
*Long delay*

**TP**
**Turbo Power**
*Enables selected weapon to fire three times in a row*

**RA**
**Rolling Attack**
*Provides special protection while jumping*
MISSIONS TO ACCOMPLISH

Mission 1 - The Dewerdye Warehouse
The phone rings at C-Force Headquarters. It's Fox, former colleague and all around sly guy. Seems the chief is caught in a trap at an abandoned warehouse somewhere on the warf. Your mission is to trek down to the warehouse swarming with traps in an attempt to take the terrorists.

Mission 2 - The U.S.S. Unkmy Battleship
If you've made it this far, congratulations, but the battle's just begun. D.N.M.E. has escaped and boarded a boat outside the building. So grab your weapons and your sea legs. But don't go overboard, cause there's one thing you need more than defeated D.N.M.E. information.

Mission 3 - The Sheeshe Tower Construction Site
D.N.M.E. may be dumb, but they're not stupid. They're holdup in a high-rise that's under construction and the building's got more traps than a construction crew's got lunch boxes. If you expect to make it through this mission, you'd better leave your vertigo behind.

Mission 4 - The Thunder Wolf Helicopter
Think you got the best of D.N.M.E.? Better not start beaming yet, because there's a bomb in the basement and the building is about to go up in smoke. Your only hope is to need for the helicopter on the roof. If you can take control of the copter you better hightail it back to headquarters.

Mission 5 - C-Force Headquarters
You're back at headquarters. Unfortunately, you're not farther ahead. The chief's still missing and you've got a press conference in half an hour. Suddenly the silence is shattered along with your windows, and D.N.M.E. is on you like a swarm of bees. The good news is, you've got the home field advantage. The bad news is, you're outnumbered 10 to 1.
THE FEARSOME FORCE'M

Burn
His arsenal includes a pistol, machine gun, or a hand grenade. When it comes to jumping, no one can hold a candle to Burn.

Smith
Deadly with a pistol, rifle and throwing nuzzle. HINT: If you want to use the rolling attack along with the throwing nuzzle, you must select the throwing nuzzle first.

Iron
Armed with pistol, flame thrower or bazooka. Speeds and jumping ability are poor. But allows plenty of metal when attacking.

Beans
His bag of tricks include a pistol, time bomb and time mine. Faster of the four. When it comes to jumping, Beans is only second to Burn.

TREAT YOUR KONAMI GAME PAK CAREFULLY
- This KONAMI Game Pak is a precision-crafted device with complex electronic circuitry. Avoid subjecting it to undue shocks or extremes in temperature. Never attempt to open or dismantle the case.
- Do not touch the terminal leads or allow them to come into contact with water or any other liquid as this may damage it.
- Always make sure your NES Control Deck is SWITCHED OFF when inserting the game pak or removing it from the NES Control Deck.

COMPLIANCE WITH FCC REGULATIONS
This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient the receiving antenna.
- Relocate the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If these measures do not correct the interference, the user is encouraged to consult the dealer or an experienced radio/TV technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: How to Identify and Resolve Radio-TV Interference Problems. This booklet is available from the U.S. Government Printing Office, Washington, DC 20402, Stock No. 004-002-023-95-4.
