THE STORY OF CRYSTALIS

It has been said that an ending is merely a beginning in disguise. And so it was that when the Great War engulfed the world, bringing civilization as we know it to an end, it ushered in the dawn of a new era. An era in which science and technology were shunned — for they had proven to be mankind’s downfall — and the ancient arts of sorcery and magic were revived.

As the survivors slowly rebuilt their world, towns and villages began to spring up, and the wisest and most capable of the magicians used their magic to keep order. Peace reigned over the land for a hundred years . . . Until a powerful magician named Draygon, intrigued by the forbidden ways of science, began to study the principles of machines and flying. Realizing the power he might wield if he combined his magic with technology, his mind became twisted by the urge to control and dominate his fellow men.
Draygon created a computer capable of simulating his magic powers. He placed it in a floating, fortified tower; and from this airborne fortress, he built and controlled his growing empire, until the entire planet was threatened by his ever-spreading evil.

In an attempt to combat Draygon, the other magicians constructed a series of powerful swords, along with powerful items to use with these swords. Based on the basic elements of the land – wind, fire, water, and thunder – the four swords, if used together at full power, would transform into the next elemental stage – that of crystal. This would be the mightiest weapon ever created: the sword Crystalis.

In desperation, they began to study the writings from the time of the Great War, where they learned of a great magician, the most powerful who had ever lived. He had been imprisoned in a cave and frozen by the evil forces of the Great War, who had hoped to use his powers to control the world after the war. Searching the globe, the wise men found the cave, and were amazed to find that the mighty magician frozen within was a mere lad.

Though they knew it might destroy them, they pooled all of their remaining powers in an attempt to will him back to life. When the boy awoke – his mind a blank, even his name forgotten – they had vanished, leaving him to find his destiny in this strange new world.

In CRYSTALIS, you play the role of the young magician, making your way through Draygon’s hostile land in an effort to locate the weapons you will need to defeat him. Draygon’s monsters and black magic will threaten you at every turn; but you must not falter – only you can deliver the world from his scourge of evil!

Learning of their idea, Draygon seized the weapons; but they had made them too well, and he was unable to destroy them. Knowing they could only defeat him if used together, Draygon scattered the weapons throughout the land, and stripped the wise magicians of most of their powers.
THE CONTROLLER

Control Pad
Move the hero; move the cursor in the shop and/or each screen.

Start Button
Start the game; see and cancel the Status Screen; go to the Sub-Screen.

Select Button
See and cancel the Sub-Screen.

A Button
Choose an item on the Sub-Screen. (When you select a specific item on the Sub-Screen, press A button to use it.)

B Button
Attack by sword; choose items. Press B button to power-up the sword and release the button to attack. Moreover, you can move with the sword powered-up (hold B button).

SCREEN STRUCTURE

A: Shows the action screens and the sub-screens in the game.
B: Shows the parameters of the hero.

Hero's Parameters

LIFE: Hero's Life gauge decreases whenever he gets damaged. If it runs out, the game will be over. The Life gauge is at its maximum when Level 16 is reached.

FORCE: Each sword has 3 levels of power. Attacks will vary depending upon the amount of power used.

EX: Experience points are obtained by defeating enemies. When your points, shown on the left, reach the number shown on the right, you gain a Level.

LV: The hero’s present Level. As the Level number increases, the Life gauge and MP limit both increase. The maximum Level is 16.
$: Money which the hero has acquired in order to buy equipment to protect himself, and tools to keep traveling. You can get this whenever you destroy monsters, and they might leave a box of treasure in some cases.

MP: This is needed to use magic. The consumption of the magic is shown with numerical figures, and this number is called MP (Magic Points). Whenever you use magic, you lose MP, and when the number comes to 0, you can’t use magic any more. To restore MP, you have to either stay in the inn or use an item.

Moreover, the value of MP is related to the level of the hero, and the higher the level is, the higher the limit. The point on the left is the current MP and the point on the right is the maximum of the current MP.

(current MP - 000/000 - maximum MP)

NOTE: if you use the maximum level (level 3) of the sword, you consume points.

Continue

When you are dead in the middle of the game, the screen will return to the title screen after the display of “GAME OVER.” At this moment you can select “CONTINUE,” and can start the game from the beginning of the stage you died on.

Once you turn off the power, you can’t use this mode.

If you lose a life by poison, paralysis, curse, or being turned to stone, you will be normal after pressing “CONTINUE.”

SUB-SCREEN

Press Select button to see the Sub-Screen.

Choose a sword, armor, magic, or an item, and save and load.

There are two screens. Press Control Pad up and down to switch screens.

Four Kinds

Maximum of four kinds displayed

Four kinds

Names of items which you designate by the cursor; also Messages

Items which are consumed - 8 kinds

Equipment which can be worn - 8 kinds

Items related to the story - 8 kinds

Magic - 8 kinds

Name of item and magic designated by the cursor; also Messages
Controlling the Sub-Screen

Press Control Pad to move the cursor, and press A button to wear equipment or choose a tool. Press A button again to cancel your command and make your choice again. When you want to drop your items, move the cursor to an item which you don’t need and press B button. Then, you are asked whether you want to give up the item. Move the cursor to Yes if you want to drop it, and press A or B button. But if you want to give up an important thing (a sword) which you can’t abandon, the words “You cannot drop!” appear on the screen.

Giving Items Away

While on the Sub-Screen, select an item you wish to use. Then, when you contact people or animals that you want to give something to, press the B button.

SYSTEM SCREEN

Press Start button on the Sub-Screen to see the System Screen and use SAVE and LOAD.

You can use SAVE only in towns and fields – A maximum of 2 games may be saved.

After selecting SAVE and LOAD, press A button; the name of the game and level will be designated by the cursor.

Press Control Pad right and left to choose SAVE or LOAD. Press Control Pad up and down to select data.

Press A button to see, “Do you want to SAVE or (LOAD)?” Press Control Pad right and left to choose Yes or No and press A button.

Press B button to cancel the System Screen.

The following message comes on at the places where you can’t save data: “Cannot save!”
STATUS SCREEN

During the game, press Start button to see the Status Screen of the hero, which shows the current conditions of the hero at a glance.

Levels

There are 16 levels.

You can go to higher levels by increasing points. As the level goes up, the higher the points of each ability of the hero becomes. These points show his strength with relation to WEAPONS and TOOLS being used.

Status

As the hero proceeds, his body will show various conditions from obstacles on the ground and attack from enemies.

NORMAL: A normal condition.

POISON: A condition of being affected by poison. While this sign is on, PHYSICAL STRENGTH goes down little by little.

PARALYSIS: Half of his body is paralyzed. He can move his body, but he can’t power-up his sword.

TURNING INTO STONE: His body turns into stone completely. He can’t walk or attack.

CURSE: He becomes a little monster temporarily. The only thing he can do is walk.

Physical Strength

The figure of the current HP of the hero is shown. The figure on the left is the current HP, and the figure on the right is the maximum of the current HP.

(the current HP = 000/000 = the maximum HP)

Attack Power

It shows the volume of damage which the hero gives to enemies. It is related to the level of the hero, and the higher his level goes, the higher the attack power is.
Defensive Power
Whenever the level goes up, the figure increases. When the hero uses armor, the figure on the left changes. When he uses a shield, the figure on the right changes.

Armor helps to reduce damage when he gets hit by enemies, and a shield helps to decrease damage by something discharging.

B button: The name of a sword to use by pressing B button.

A button: The name of a magic to use by pressing A button.

Armor: Clothes or armor being worn at the present time.

Shield: Shield being used at the present time.

TYPES OF ITEMS

There are four groups of items: Weapon (Sword), Guard, Tool, and Power-Up Items.

Weapon (Sword)

There are four kinds: Sword of Wind, Fire, Water, and Thunder. Their effectiveness will depend upon levels and races of enemies. The swords will also destroy obstacles (walls, etc.) which stop the hero's progress.

Guard (Shield, Armor)

There are 8 kinds of shields and armor. They are different from each other in strength and features. It is important to use them properly depending on places and enemies.

Tools

You need them to continue to travel, and can buy them in tool shops in the towns and villages. Sometimes they will be hidden, and the player must find them in order to use them.

1) Consumable items: When you use it once, it will be gone.
2) Worn items: You can wear them many times, and they become effective when you put them on. (You cannot sell these.)
3) Event items: Important items to carry on the story. (You cannot buy or sell these.)

Power-Up Items (Bracelet, Ball)

They increase the level of four swords and make their attacks stronger. When you get a ball, you can go to level 2; and when you obtain a bracelet, you can move to level 3 (the strongest.) Because of these power-ups, you can destroy walls, freeze water, and call lightning.
THE FIVE SWORDS

**Sword of Wind**

The Sword of Wind is given by an elder in the Valley of Wind village, Leaf. It is the first sword which the hero uses. It launches a wave of vacuum (vacuum discharge).

**Level 1:** Discharges wave of vacuum (small).

**Level 2:** Fires piercing bullet (large).

**Level 3:** Causes a tornado and wipes out all enemies in front of the hero.
