THE STORY

Welcome to an epic saga of Good versus Evil, where a Dark Fiend rules an ancient world with cruel, terrifying magic. The land cries for a champion to end the eternal tyranny. From a small farming village in the High Hills comes a noble fighter called Victar. He carries the battered and rusted hilt of an old sword. The fables tell of how this sword once defeated the Dark Fiend. Victar must find the missing blades and overcome the Fiend’s demon horde.

HOW TO PLAY

DEMON SWORD consists of three worlds. Each world has two levels. A level is completed when Victor successfully defeats the creature at the end of that level. A blade from the Demon Sword is awarded when the player completes both levels in a world. The player will enter a seventh level if he completes all three worlds.

A player starts with three lives. Your life decreases if an enemy creature hits you or runs into you. Some creatures are more lethal than others. The game ends if the player indicator reaches zero. You can restore your energy level by collecting red spheres and extend this level by collecting black spheres.

STRENGTH AND STATUS

Victar’s energy levels and magic item inventories are displayed below the game screen.
