OBJECT OF THE GAME/GAME DESCRIPTION: Fantasy Zone is a solar system of eight wonderful planets – each more fantastic than the next! There’s bad news though; Evil Menons have overrun Fantasy Zone, using stolen money to build their forces. As Opa-Opa, a living spaceship, you’ve got to recover the money and destroy the nasty Menons on each planet. Collect enough coins along the way and you can buy meaner weapons and awesome engines. Watch out though, the enemy boss lurking between planets wants to put an end to your planetary quest!

THE GAME

Press START on the control pad to begin the game. At the beginning of each game you get three Opa-Opa spaceships. When all 3 lives are lost, the game’s over. There are eight rounds (each planet is a different round). Every planet is unique, from the terrain to the weird creatures who live there. You’ve got to destroy the creatures on each planet (while grabbing as many coins as you can) before you zip on over to the next planet. When all bases on a planet are destroyed, an enemy boss will try to demolish you – watch out! Only by destroying the boss will you be able to proceed.

“POWER-UP” PARTS

If you collect enough coins you can buy speedup parts and stronger weapons to increase your fighting abilities. Capturing the SHOP balloon allows you to buy stuff at the PARTS SHOP. Using the Control Pad, move the HAND to the desired part or weapon. When the HAND blinks, push button A. Repeat to buy more parts and weapons.

Continue on to the PARTS SELECT screen. No matter how many parts you have bought, you can only use one from each of the POWER-UP categories (Speedup, Weapon 1, Weapon 2). Using the Control Pad, move the ARROW beside the desired item and push button A (the * mark will appear beside your selection). After making three selections, move the ARROW beside EXIT and push button A. Now, with your POWER-UP parts and weapons you’re ready to continue the battle!

Note: If you have already bought POWER-UP items, capturing the Select (SEL) balloon during the game will also allow you to go to the PARTS SELECT screen.

**Note:** Each time you buy an item in the PARTS SHOP its price goes up a little — that same item will cost you more next time you buy it. How much more? Who knows! The merchants in the Zone are rich, and this is one of the ways they got that way!

Before being reinforced with POWER-UP parts and weapons, all Opa-Opa spaceships come equipped with **Small Wings**, **Twin Shots** and **Single Bombs**.

HINTS

• If you use a rapid fire controller, you can adjust the rapid fire rate of your weapons.

• Try to collect as many coins as possible, so you can buy the more powerful weapons and faster engines.

• Each enemy boss has a weakness, it’s up to you to find it!

• Before destroying the last enemy base on a planet, try to find the weapons select balloon. Select a powerful weapon, the one that works best against the enemy boss.
