TRANSFORMATION
When you fight against the tusk soldier, select command 'Transform'. That'll let Rick and his allies transform into the Flying Warriors. After the transformation, you'll be able to use the 'Mystic Spells' and upgrade the 'Hiryu-no-Ken'. To escape the dimension of the battle, you must defeat the enemies. The 'Battle Mode' takes a new turn with Culture Brain's original 'Shingan System'.

COMMANDS IN THE BATTLE
If you press the 'Start' button, various commands will appear on the screen.

- TRANSFORM—When the enemy reveals his true color, you can transform your character by using this command.
- MAGIC WATER—It'll recover your physical strength.
- ALLIES—When you engage in the battle against the fighter from the Dark Dimension, you can change places with allies anytime after you find them.

ADVICE
1. Use 'Magic Water'.
2. Each enemy has own specialty. Depending on the enemy, 'Mystic Spells' and the 'Hiryu-no-ken' will have the different effects. Find out the characteristics of each enemy and devise a strategy.
THE BATTLE MODE—SHINGAN SYSTEM

Culture Brain created the ‘Shingan System’ which is implemented in the ‘Defense’ for realistic fighting action. We’ll show you the difference from the conventional system. After the strict practice, Flying Warriors can open the ‘Mind’s Eye’ and see the weakness ‘RED Star’ of enemy as well as their own.

Example 1: Defense
The ‘RED Star’ appears on your upper body, quickly defend your upper body.

Example 2: A chance to attack
The ‘RED Star’ appears on the enemy’s middle body. Attack the enemy’s middle body.

As you can see from the examples, both the attack and defense are performed on three major parts of the body, upper (head), middle (stomach), and lower (legs).

Select the position you wish to attack or defend by pressing the control pad.

When the ‘RED star’ shows up on your body, you should defend it. If you try to attack the enemy, he’ll counter. You should try to attack only when the star appears on enemy’s body. If you defend properly, your ‘K.O. Gauge’ will increase, thereby allowing you to use the supreme offense skill, the ‘Hiryu-no-Ken’.

MORE ‘STARS’
The ‘Red star’ is not only the ‘star’ the Flying Warriors can see. There are three more marks.

‘THE BLUE’ STAR
Indicates that you can inflict more damage to the enemy than the ‘Red Star’. However, the appearance of this mark is different depending on your enemy.

‘HIKOU STAR’
Is the ultimate mark which means you have the chance to defeat the enemy with one blow. It is difficult to get this mark.

‘RUSH MARK’
Indicates a chance to attack continuously without any interruption. When you get this mark, press the A or B button to throw various skills automatically.
