The Story

A planet outside of the Earth's galaxy called Pan was suddenly attacked by an unknown alien force. The aliens had the power to consume all living things, machines, and buildings. Pan soon became overwhelmed by the aliens and their army began losing all of its fighting power. The soldiers and people of Pan were advised to evacuate the planet, however, the captain of the army, Max Maverick, refused to leave. He suited up for battle and faced the aliens alone using his motorcycle and Hover-craft as his only means of transportation.

Each bomb that Max fires has different levels of power and destruction. Picking up certain items along the way (which are defined later in the booklet) will increase the power of his bombs. Use the Bomb Level Information at the bottom of the screen to determine how much power you have. Also, up to level 3, you can select the bombs direction by pressing the Control Pad while firing. When Max is defeated, his bomb level will decrease by one level.

If the Spreading (W) has not been used, you can continue in the same level.

**Spreading (W)** will fire in increasingly wider directions and knock down the aliens when they are spread over a large area.

- LEVEL 1: 1 Direction
- LEVEL 2: 2 Directions
