SAFETY PRECAUTIONS

Please take time to read the important instructions in this booklet. Observing the step by step instructions and complying with warnings will be your personal guarantee to greater game satisfaction.

1) This is a high precision Game Pak. Do not store it in places that are very hot or cold. Never hit it or drop it. Do not take it apart.
2) Do not touch the connectors. Do not get them wet or dirty. Doing so may damage the Game Pak and/or the Control Deck.
3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
4) Store the Game Pak in its protective sleeve when not in use.
5) Always check the Game Pak edge connector for foreign material before inserting the Game Pak into the control Deck.
6) There may be areas on your screen that are not accessible, but this in no way will impede game play.

TABLE OF CONTENTS

[3] Screens p. 9
In 1999, the Krion Empire robot battalion descended upon the earth, and brought the planet to the brink of destruction.

The Krion Empire demanded the immediate and unconditional surrender of the world. When planet earth refused, the Krion Empire started a massive general attack.

The Krion Empire set up large bases at points all over the world from which they sent out their robots. The robot hoardes attacked indiscriminately. Their power overwhelmed even the most advanced armaments of the world. Nearly everyone believed the world would soon be ruled by the Krion Empire.

But now.........

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and used radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer’s instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communication Commission helpful:
