Pests & Rodents: Some of these enemies can shoot. Some carry health inside.
Hearts: These give the Kernel health to protect him against attack.
Key Card: This is required to open the door to Ronnie's control room on the Moon base.
PESTERMINATOR

1. Introduction - The Rodent's Revenge.

When you're bugged by nasty pests, it's time to call Kernel Kleenup, the familiar character from Western Exterminator. Ronnie, the super rat, and his friends are pushing for a hostile takeover and their territories cover houses, office buildings, warehouses, hotels, swamps, and even the moon. Watch out bugs, PESTERMINATOR has a big surprise waiting for you.

III. GAME PLAY

When you're bugged by bugs you call an exterminator. But what do you do when Ronnie the Super Rat (a has-been lab rat mutated by research experiments) decides to do some of his own experiments in pest control.

From his headquarters based on the dark side of the Moon, Ronnie is raiding the Earth with his powerful PEST BEAM. The PEST BEAM is making the bugs of the Earth go buggy. When roaches and rodents run rampant there is only one man for the job. World leaders cried out for Kernel Kleanup, the Western Exterminator.

Ronnie the Super Rat!

III. GAME PLAY (Continued)

As Kernel Kleanup, you will start off with 5 lives and 5 energy hearts. Whenever you are bitten by pests you lose one heart, and when you lose all 5 hearts you lose one Kernel Kleanup. Extra hearts are hidden in different places in the game. With your trusty hammer it's your job to bash all the bugs on the level. When all the bugs are killed you will advance to the next level. On the 8th level you will reach the moon and there you will face the powerful and intelligent Ronnie the Super Rat.
IV. LEVELS

IT'S NOT JUST AN ADVENTURE, IT'S YOUR JOB.

Level One: House Cleaning.

It will take lots of bug bashing, but if you can keep from getting pest off you will be able to make this house a home.

Level Two: Hotel Eradication.

What was once a resort to enjoy has become a haven for pesky pests of every kind.

Level Three: Warehouse Fumigation.

This warehouse is loaded with nasties from wasps and roaches to big mouth beetles. The fruit flies are tiny and hard to see, but they, like the rest, are in for a pounding.

Level Four: Mansion Mayhem.

Bugs, bugs, and more bugs, from the green house to the basement, from the kitchen to the garage, they're everywhere.
IV. LEVELS (Continued)

Level Five: Swamp Gas Cleanup.

You take to the skies in your chopper and eradicate flying bugs of every description. Fleas and gnats, mosquitoes, and flies, they don't stand a chance.

Level Six: Warehouse Blow Out.

The abandoned warehouse was once one of the busiest in the nation. Now it's being used as a base of operations for the pesty takeover.

IV. LEVELS (Continued)

Level Seven: Deep Sea Danger.

You take to the deep blue and see what you can do about the giant squids and red mutant small fish, but be careful about the sharks.

Level Eight: The Final Conflict.

This is it - the final conflict between you and Rennie the Super Rat himself! Do you have what it takes to shut down his powerful Pest Beam? The world is depending on you!
V. MAJOR ENEMIES

- Nestor The Egg Pod
- Vampire Mosquito
- Flotter
- Squisaurus
- Columbian Stinger
- Blue Shark
- Tarantula G Bug
- Cannibal Worm
- Fire Ant

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the NES® with respect to the receiver.
- Move the NES® away from the receiver.
- Plug the NES® into a different outlet so that NES® and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions.

The user may find the following booklet prepared by the Federal Communications Commission helpful: HOW TO IDENTIFY AND RESOLVE RADIO-TV INTERFERENCE PROBLEMS. This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

Note: NES® is the abbreviation for Nintendo Entertainment System®.
COLOR DREAMS, INC. (MANUFACTURER) warrants to the original purchaser that this Color Dreams Game Cartidge (CARTRIDGE) shall be free from defects in material and workmanship for a period of 90 days from the date of purchase. If a defect covered by this warranty occurs within the warranty period, Color Dreams will at its option repair or replace the defective CARTRIDGE free of charge (except for the cost of returning the CARTRIDGE).

TO RECEIVE THIS WARRANTY SERVICE:

1. Simply send your CARTRIDGE together with the original dated proof of purchase (States 51p) and circle the item.
2. Include a note stating the nature of the problem or defect.
