3. GAME STORY

Once there was a holy place called Argool which was founded by five legendary Indora Gods. One day, suddenly the blackest tragedy happened. The prosperous holy place, Argool was attacked by the troops of the cruel king called Ligar. The sky of the holy place was completely covered with the flying castle of Ligar and his army of dangerous beasts. These animalized soldiers came down from the sky and committed the most atrocious cruelties. In a single day, they established the kingdom of EVIL. In addition, Ligar took away the “Door to Peace” symbolizing the peace that had been created by Indora. The hope for peace disappeared with the loss of the “Door to Peace” and the people of Argool ceased to smile and could only pray for salvation. They prayed an ancient passage to counter the fulfilled prophecy of Ligar’s evil reign of terror. The legend says, “When the peaceful land is covered with EVIL SPIRITS, a brave soldier will be brought to life from the dead, for the purpose of saving persecuted people. The people of Argool’s painful prayers were so loud that it reverberated throughout the mountains and traveled a long distance in the land of Algosu. And at last – Rygar, the hero came back from the dead in order to restore peace to the land of Argool, battling the forces of evil everywhere. Join forces with Rygar!

- Rygar runs left
- Rygar runs right
- Rygar crouches down
- Rygar climbs up
A button... JUMP  ● To make Rygar jump press A button.

Rygar can run left or right. Also, in "Garloz" Rygar is able to run in four directions, and can jump in eight directions.

Some enemies will faint if trampled upon.

The weapon used frequently by Rygar is called a Diskarmer.

When Rygar reaches a rope and you wish to climb, simply press the control pad's upper directional arrow — to climb up, or press the control pad's lower directional arrow — to climb down.

NOTE: The mastery of the above mentioned operations will allow the player to advance to the difficult stages / rounds / levels of the game and achieve an increased level of game satisfaction!

5. SUB SCREENS

Pressing the START button during the game displays sub-screens which show the present status of Rygar. To re-start the game, simply press the START button again to continue.

1. Physical-strength meter: This value represents the physical strength of Rygar. If the value comes down to zero, Rygar dies. The game starts with the value of 3, but it increases every time you defeat an enemy. The maximum value is 12.

2. Lasting power of Rygar: With the increase in the number of defeated enemies, Rygar is powered up in terms of Tone (striking power) and Lasting power (durability). These items make Rygar more powerful.

3. Potential power of Rygar: Move * through the vertical movements of the ◀ button for selecting a function and use (A) button for decision-making.
   (For further details, see page 16.)

4. Items to be selected: Move ▲ through the horizontal movements of the ◀ button and use (B) button for decision-making.
   (For further details, see page 13 and page 15.)

5. Items available all the time: All the items on hand are displayed. They can be used at any time.
   (For further details, see page 14, 15.)
6. FIRST OF ALL, GO TO MEET THE LEGENDARY

- First of all, seek wisdom from the legendary God, listen to him as he will teach you lots of things.

- Get a grappling hook weapon from a legendary God.

There is a legendary God who will give you a grappling hook weapon. Usually Rygar uses a rope for vertical movement. In addition, the use of a grappling hook weapon allows him to go up or come down from a tree or cliff. First set the + button to UP position or DOWN position and use B button for a grappling hook weapon to be lengthened and caught on a tree nearby a cliff. Now Rygar is free to climb up or down a tree or a cliff. But remember that the position of a hill he can climb up or down is limited.

Once you get a grappling hook weapon, use it in various situations. It is also possible for the weapon to be caught by a tree or a hill outside the screen. In Lapis, go down to see a lot of places to make sure of geographical features.

There are many legendaries isolating themselves from society for ascetic practices. These hermits will help Rygar to be refreshed.

- Recovery of the physical strength

Some legendaries are of assistance in the recovery of physical strength of the wounded and physically weakened Rygar. With some legendaries, Rygar is refreshed by seeing them. With others, they give him medicine for recovery of his physical-strength. But unless Rygar has a coat of arms given only to brave warriors, he is not allowed to get the medicine. For the medicine, display a sub-screen and move 1 through the horizontal movement of the + button for item selection and use B button for decision-making.

1. Grappling hook weapon of a legendary
2. Medicine for physical-strength recovery
3. Coat of arms
7. LOOK FOR INDORA’S FIGHTING GODS

The use of a crossbow will allow a rope to be stretched by pressing the ◇ button when Rygar reaches the stake of a tree with no rope wrapped around it.

3 Coat of arms

There are two kinds of capsules. The capsule on the right hand will increase his spiritual strength by one unit and the capsule on the left hand by three units. Up to seven units can be added to his spiritual strength. First, display a sub-screen. Then, move through the vertical movement of the ▲ button and use the ▼ button for decision-making. This operation consumes a certain amount of spiritual strength and causes his potential capacities to be available.
