GAME FEATURES

1. POWER UPS

You collect Power Ups by riding your surfboard over the power indicators listed below.

**F** Cosmic Power. There are five levels of cosmic power. The Surfer starts with two bullets. Every F you collect increases your cosmic power in the following way:

- One F: Surfer fires three bullets
- Two F's: Surfer fires four bullets
- Three F's: Surfer fires four bullets and orb bullets have double hit power.
- Four F's: Surfer fires four bullets with double power and orb bullets have double hit power.

**BONUS:** After you have obtained five F's, in addition to the one you begin the game with, you will receive a bonus of 4000 points for each additional F you collect.

**B** Smart Bombs. Collect B's by riding over them. Press Select to annihilate all enemies, except for the Bosses, on the screen you're riding through. A maximum of 5 bombs may be held at any one time.

**BONUS:** After you have obtained 5 bombs, you will receive a 4000 point bonus for each additional B you collect.

When you die, you lose any Power Ups you may have obtained.

**ORBS ON THE HORIZONTAL LEVEL**

You can use one orb on the horizontal level of each world. If you collect two orbs on the horizontal level of the world you are currently in, you will have to wait until you are on the vertical level to use both of them.

HISTORY

Norrin Radd was born on Zenn-La, a member of an extremely long-lived race of humanoid aliens who had achieved a virtual utopia as disease, poverty, war and all social ills had been eliminated many generations ago. The Zenn-Lansans, including Radd's lover Shalla-Bal, were content to live in hedonism but Radd was discontent, believing that his culture had become stagnant and that men could only find fulfillment in quest, yearning and struggle.

One day, Radd heard the planet-wide warning system alarm for the first time in the culture's recent memory. An immense alien spacecraft, believed to be hostile, had been detected approaching Zenn-La. Computer analysis of sensitive long-range observations indicated the alien craft to be of immeasurable power. When Zenn-La's carelessly-maintained defenses proved useless, the population panicked.

During the emergency, Norrin Radd encountered a friend of his, a member of the Council of Scientists. Radd implored the scientist to arrange a spaceship for him so that he could rendezvous with the invading ship in order to discuss peace. A ship was assembled within minutes, by means of highly advanced technology, and Radd took off.

Norrin Radd's craft was taken aboard the alien ship. He found himself on the home vessel of Galactus, the vastly powerful being who drains the life energies from entire planets in order to live. Galactus had come to feed upon Zenn-La, a process that would render the planet barren and lifeless. Galactus explained to Radd that while he meant the world no malice, he had been searching for a suitable planet for too long to begin anew. Galactus mused that if he had a herald who could scout suitable planets in advance for him, populated worlds such as Zenn-La could be spared. Radd volunteered to serve Galactus permanently in exchange for Zenn-La's safety. Galactus agreed, and used his cosmic power to transform Norrin Radd into a being capable of serving him as a herald.
Galactus amokially restructured Norrin Radd's body, leaving him covered with a flexible, silvery material that could withstand the rigors of travel through outer space. Then Galactus fashioned a unique star travel device out of the same silvery material, a device resembling an Earthly surfboard.

Finally, he granted his new herald a fraction of his cosmic power, enabling him to perform feats which would be necessary in discharging his duty. Galactus named Radd the Silver Surfer and immediately dispatched him to locate a planet for his master to feed upon. He allowed Radd one last visit to his home where he sadly bade farewell to Shalla-Bal.

**PASSWORD SCREEN**

Push up on the control pad of both controllers simultaneously when the title screen is on to enter the Password Screen.

That's all the Silver Surfer will say for now.

Check out your favorite Nintendo game player's magazines for future secret passwords.
Across the cosmos of the universe few dared ignore the summons of Galactus.

Even his one-time herald.

A prophecy?

Surfer— I have need of you. A prophecy is unfolding and I am powerless to stop it!
HEARD ME. SURFER... WHEN I TRAVELED THROUGH THE FORGOTTEN PLACES, I BECAME AWARE OF A PLAN TO DESTROY THE BOUNDARIES BETWEEN OUR UNIVERSE AND THAT OF THE MAGIK DOMAIN.

TIME MAY HAVE NO MEANING TO YOU, BUT IT DOES TO ME. GET TO THE POINT.

IMPUDENT ONE! THE POINT, AS YOU SAY, IS THIS— THERE IS A POWERFUL DEVICE MADE UP OF SIX PARTS. WHEN THIS DEVICE IS ASSEMBLED IT IS CAPABLE OF BREAKING A HOLE IN THE FABRIC OF SPACE SO WIDE THAT THE HORSES FROM MAGIK WILL BE ABLE TO BREAK IN AND FOREVER RULE OUR UNIVERSE.
You must stop the device from being assembled by confronting various defenses and finally entering the lairs of the fiends to stop them from getting into Magik with parts of the device. Help me—If you fail in your quest—The Irrational Humans on Earth that you find so worthwhile will perish, along with every other living creature.

I cannot allow fellow beings to suffer annihilation. I accept the challenge. But answer me this, Galactus, you say there are six pieces to this portal device, yet you mention only five fiends. Five worlds. Where is the sixth piece?
