SKYKID: THE MISSION

"SKYKID" is an exciting aircraft game originally created for the arcade. It's a mission that puts you right in the middle of all the action! The purpose of the game is to take off from home base, fly through the enemy's defenses and carry out your assigned mission. After you succeed in destroying the enemy and land back on base, you can go on to the next mission. In playing "SKYKID", you'll learn to fly your plane with the confidence of an experienced pilot.

PRECAUTIONS

Be sure to turn the power OFF before inserting the game pak or removing it from the unit.

This is a high-tech instrument. Do not store it in an area subject to extreme hot or cold temperatures. Never drop it, bump it or attempt to take it apart.

Avoid touching the connectors. Do not allow them to get wet or dirty. Doing so will damage the unit.

CONTROL FUNCTIONS

Control Pad
Fly up, down, faster-slower.

B Button
Loops plane/droop bombs.

A Button
Shoots machine guns.

Select Button
Selects 1 or 2 players
(2 players can play at the same time).

Start Button
Starts game, pauses action during play.
HOW TO PLAY

Take off from your base, fly through the enemy's defenses, bomb the designated target and land back on base.

Shooting
Your plane's gun is effective both in aerial dogfights and against ground targets.

Bombing
Destroy main targets with bombs. When the bomb appears, touch it and take it with you. The loop button becomes the bomb button.

Loop
Learn to master three different types of loops. When the plane is loaded with a bomb, it cannot loop.

Taking Off and Landing

The player's plane should take off as soon as it appears at the airport. Land when "LAND HERE" appears. If you miss landing, your plane will crash.

Shooting
Effective in the sky and on ground targets.

Bombing
Touch the bomb and take it with you.
Looping

Master the 3 types of loops.
When loaded with a bomb, you cannot loop.

Recovering from a spin

When crashing, don't give up. You can save your plane by pressing up on the control pad and pressing the A or B button repeatedly.

Two Player Teamwork

Player Number 1 is the Red "Baron".
Player Number 2 is the Blue "Max".

When playing a two player game, partnership is very important. Sometimes you'll compete with each other; sometimes you'll help each other. You can save your partner when his plane is spinning by shooting him. This is a demonstration of "the power of friendship."
Baron and Max

Baron is the main character in this game.
Max is a good friend and rival.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer’s instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that the computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:
