SAFETY PRECAUTIONS

Please take time to read the important instructions in this booklet. Observing the step-by-step instructions and complying with warnings will be your personal guarantee to greater game satisfaction over a long period of time.

1) Avoid subjecting this high precision Game Pak to extreme temperatures and shock. Further more, never attempt to disassemble your game pak.
2) Do avoid touching the connectors. Store the game pak in its protective STORAGE case.
3) Use of thinners, solvents, benzene, alcohol and other cleaning agents can damage the game pak.
4) Pauze for 10-15 minutes after 2 hours or more of continuous game playing.

* Please note that this game has been programmed to take advantage of the full screen. Some older models have rounded screens and may block out a portion of the image.

WARNING: DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System® ("NES") and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.
A small band of alien survivors landed on Earth several centuries ago. In order to survive in this new environment, they produced a neon green gel which provided nourishment.

In an effort to blend into human society, they developed clones. As centuries passed, BEDA Corporation came into being. This was a company which manufactured and distributed electronic and technological equipment, however, behind all this the company was also responsible for the maintenance of the alien race.

The neon gel had a very different effect on humans. It became a substance that was sought after by some of the world's wealthiest abusers. The gel is mass produced by BEDA Corporation for profit, but the side effects proved to be lethal for human users.

Vice officer Quinn Hart, along with his partner Detective Reese, set out on assignment to locate the manufacturers of the mysterious gel. During the investigation, Reese disappears. Since his body has never been found, he is believed dead.

Now, Hart must go alone to uncover the source of the gel and the force behind it. His skills, nerves, and ultimately fate are at stake in this deadly plot for survival.
CAR CHASE SCREEN

  - Forms an arc of deadly power, good at close range.

- **.44 Magnum**
  - A sidekick packed with lots of stopping power.

- **Hand Grenade**
  - A long range destroyer, but keep a close eye on your inventory.
VICE DOSSIER

HART
Vice officer Quinn Hart has been on the force for several years. He has an uncanny knack for getting out of tight spots; some of the other officers often joke about him being "super-human".

CHRISTY
This vice officer is probably one of the sharpest on the force. She often works with Hart and Reese to solve tough crimes. Christy is also Hart's latest and longest flame.

SOPHIA
An associate of Christy, Sophia manages to show up in some of the most unusual places. Officers joke at her ability to track anyone, anywhere.

DAMIAN HAWKE
A successful entrepreneur who has managed to productively operate BEDA Corporation since it was handed over to him. He is ruthless, intelligent, and sharp. Personal records on him are sketchy and scattered throughout the world.

B.E.D.A. HARDWARE

Below are descriptions of missing top secret military weapons. Oddly enough, these instruments of war were developed by BEDA Corporation and contracted to various governments.

M5 SCORPION
Developed for the U.S.M.C. by BEDA Corp. Military Division, the M5 was designed to back conventional tanks and infantry. Its GORI navigation system, Pulse-Plasma Cannon, and missiles make it a worthy opponent.

PCU-100 VARDKIN
Designed for the Red Army, the Vardkin personal combat unit was to be used for close range military actions. However, the Soviets declined production because of the hazardous effects of its homing missiles on ground personal.

PCU-110 ROGUE
A prototype of an updated Vardkin, the Rogue was constructed for close range combat using high-temp. weapons. So far, tests suggest that the Rogue's combat ability is far beyond that of its predecessor.

BEDA Corporation is a leader in advanced weaponry. It is rumored that they have developed a personal combat suit which conforms to the body like an armored wet-suit, and launches an odd, biological weapon.
Even a good cop can get nailed, but it doesn't always mean a mean 21 gun salute - you have unlimited continuations. After all your men are eliminated, the screen will flash "GAME OVER". Press the Start button, and the game will continue at the beginning of the last stage played.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that Control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

90 DAY LIMITED WARRANTY AMERICAN SAMMY GAME PAKS

90 DAY LIMITED WARRANTY:

American Sammy Corporation (American Sammy) warrants the tangible components of the American Sammy Game Pak (PAK) (excluding Game Pak Accessories or ROBOT ACCESSORIES) shall be free from defects in material and workmanship for a period of 90 days from date of purchase. If the PAK is covered by the warranty period during 90-day warranty period American Sammy will repair or replace if PAK, at its option, free of charge.

To obtain this warranty service:

1. DO NOT return your defective Game Pak to the retailer.
2. Notify the American Sammy Division of the problem requiring warranty service by calling (203) 322-7167.
3. Return the American Sammy Game Pak unopened in the original packaging to the store where the product was purchased. We will service parts with a Return Authorization number. Simply request this number on the inside packaging of your defective PAK and return your PAK postage prepaid, at your risk of damage, together with your name, address, a complete description of the problem, and the 90-day warranty period.

American Sammy Corporation
2411 20th Street, Suite B-164
Torrance, CA 90651

This warranty shall not apply if the PAK has been damaged by negligence, accident or unreasonable use, modification, tampering, or other causes unrelated to defective materials or workmanship.
