Are you ready to begin your quest to defeat Hargon? Your traveling companions, spoken of by the king, are descendants of the great Erdick. Finding the Prince of Cannock and the Princess of Moonbrooke will not be easy but with your courage...

To the west of Midenhall lies Leftwyne, but before leaving on your journey remember to equip yourself with the Copper Sword given to you by the king. (use the "EQUIP" command) You are already equipped with the Leather Armor.

Begin your search for the Prince to the north of Leftwyne. To find the Princess you must pass through the monolith west of Leftwyne. But first focus your energies on finding the Prince. You need not fear for the Princess, the two of you will be able to rescue her. Don't forget to carry an antidote herb with you.

"Only moments ago he was here. I think he is going to Midenhall Castle."

"I shall anoint thee with this water and wish thee well."

The Prince you are searching for is said to have been to Midenhall. You would be wise to raise your level, and gain more gold pieces before journeying to Midenhall. A visit to the old man may restore the energy you need.

Don't delay, you've just missed the Prince of Cannock. He left word that he's traveling to the Spring of Bravery. After finding the Prince, keep a keen eye out for the Silver Key. This key will be very helpful in talking with those who may be locked up.
