Program 14 can be used at any time during a game to make menu selections or enter passwords, even at the beginning of the game. For games that require you to make menu selections before you start playing, enter Program 14 before you enter any other game program.

Some games direct you to pause to bring up a selection menu during a game. Others might tell you to use the direction pad. Follow the instructions for the game that you are playing to bring up the selection menu when you want to use it during a game.

EXAMPLE: 1943™

To Enter Program 14

1. Press PROG
2. Press 1 4 (1 + 4)
3. Press ENTR
4. Press ENTR again.

To Make 1943™ Menu Selections

Use the directional pad and other buttons on the POWER GLOVE™ to make selections.

To Enter 1943™ Regular Game Program

1. Press PROG
2. Press 5
3. Press ENTR
4. Press ENTR again

Don't forget to recalibrate the glove by making a fist.
ALTERNATIVE PLACEMENT OF THE L-BAR

Having problems fitting the L-Bar on your 13" TV?

ANSWER: Here are several solutions. But no matter which one you use, remember these important points:

1. There must be a clear path between the Power Glove on your hand and each of the L-Bar sensors.
2. Although the L-Bar can be positioned above or below the TV, it cannot be placed very far to the right or left of the TV.
3. The LED sensor of the L-Bar must always be in the upper right hand corner.

- See pages 4 & 5 of the Power Glove Instruction Manual for additional set up instructions.

I. THE STACK-UP SOLUTION

Put books, boxes, or other stackable things on top of your TV to lift up the L-Bar.

1. Stack books or boxes on top of the TV.
2. Set L-Bar on top of the stack.
3. The side is now raised above the bottom of the TV so the L-Bar will fit.

II. THE HANG-DOWN SOLUTION

Position TV so that the L-Bar can hang down the side of the TV.

1. Slide the TV over to the edge of the table or cart it is resting on.
2. Let L-Bar hang down the side.

III. THE UP-FRONT SOLUTION

Set the L-Bar in front of your TV on anything that is sturdy and stable such as a chair, a table, or even a large box.

1. Position a chair directly in front of your TV.
2. Set L-Bar on chair below the screen so you can still see the screen.
Resting your elbow on the arm of a chair or on your knees when you are playing helps you play longer without getting tired and keeps you centered too.
PROGRAM 1
To enter Program 1, press:
