A FRIEND IN NEED

It seems that Waldo's good friend, the wizard Whitebeard, has lost five magic scrolls in the Realms of Enchantment. He asks Waldo if he can locate the scrolls for him before it's too late!

Well, our globetrotting hero can't resist a challenge, so he takes his trusty canine companion Woof along on their new adventure! Now it's up to YOU to spot Waldo and the missing scrolls as well as bonus points and much more! So keep a sharp lookout for fun in this colorful fantasy for the whole family!

LET THE QUEST BEGIN

Insert the The Great Waldo Search game pak into your Super Nintendo Entertainment System and turn the machine on. Press Start to begin the game. You are given the choices: Normal level, Expert level and the Super Waldo Challenge.

The Normal mode is for beginners. The objects are easier to find because they are more exposed. The Expert mode has the same objects, but they are harder to locate because they are partially hidden or obscured by the background.

If you decide to try the Super Waldo Challenge first, watch out, there are more Waldos here then you've ever seen before.
LET THE SEARCH BEGIN

If you have chosen either the Normal or Expert difficulty level, you can choose which of the 4 areas to begin your search. The areas are:

- Land of the Gargantuas
- Water Monks vs. Fire Druids
- Kingdom of the Carpet Flyers
- The Enchanted Underground

You can choose any of them in any order you wish by using the control pad to move left or right and then pressing the A Button when the picture from the realm you wish to visit appears in Whitebeard's crystal ball. The clock starts running when you arrive at each level, so search quickly!

THE CONTROLS

CONTROLLER #1

Start Button: Pause/unpause the game.
Start and Select: Reset the game to the very beginning!
A or B Button: Press to collect items and people from the screen. Also use to make selections from Whitebeard's crystal ball.
Control Pad: Moves magnifying glass up, down, left and right across the screen. Control pad is also used to toggle between choices on the crystal ball.

CONTROLLER #2

*Special Parent Feature! For those of you who wish to assist young players on their search for Waldo and the magic scrolls, we offer these helpful tactics. Make sure both controllers are inserted into the Super NES before beginning the game. If the person you are playing with needs assistance, take controller #2 and use as follows:

A Button: Forces the movement to the screen containing Waldo, then the screen containing the magic scroll then the screen containing Woof. This happens only when the A Button is being held.
B Button: If the player just needs a little extra time to complete the search, press the B Button to turn off the time function.

*However, by activating the Parent Feature the Game will require that Woof be found in order to complete the level.
WHAT TO LOOK FOR . . .

Scrolls: You need to find a scroll in each level in order to complete your search.

Clocks: Get bonus time and points for every clock you obtain! Look for special clocks in the expert level (See Notes section)

Point Markers: Small plates with scores on them will add to your total point score by collecting them.

Woof: When you find Waldo's dog you will be taken to a bonus round. You'll see him flying a magic carpet over a fantastic cityscape. Grab all the bonus points you can by maneuvering the carpet with the control pad. You'll return to the level you were searching after the bonus round is completed.

Waldo: Well, what would this game be called if you weren't looking for you-know-who? You need to find Waldo (and the scroll) in each level to graduate to the next one.

SPECIAL GAME NOTES

• When playing in either the Normal or Expert games, you will return to the Selection Stage after successfully completing each search. You can choose which level to try next. After completing the first four searches, you automatically go to the Super Waldo Challenge! This is the last (and most difficult) puzzle! In the Land of the Waldos, you start by looking for the Waldo that is missing a shoe . . . Try to complete the challenge five times for a "quick game" score. Do this if you don't have the time to play a complete game.

• TIME. Because time is of the essence, you must complete the search in each level before the clock runs out. Collecting hidden clocks throughout each level buys you some extra searching time. If you run out of time, you will see a lose screen and your points will be tallied up. If you wish to keep playing a continue feature returns you to a new game.

• If you return to play after a loss, an extra clock will be awarded to you (to give you just a little more time).

• In the Expert game there are special clocks that freeze the action of the main game to give you a bonus item to search for. There is a written clue to this item that appears on the screen. Look carefully!

Once again, good luck on your search for the magic scrolls!
