Who could forget that fateful event, when Terra transformed and took off screaming into the sky? Not you! She landed briefly in Kohlingen, searing a small home with her radiant aura, before arriving at her final destination of Zozo, where she was able to rest in a perfectly normal bed without causing any damage at all for some reason.

Now you can own a piece of gaming history; a piece of charred wood from Kohlingen itself! I won't bore you with the details of how I got it, since they contain lots of tedious discovering gates to lost dimensions and vanquishing of whelks with nothing but my bare hands and some table salt and such, but be assured that I risked life and limb, particularly Pinky, my favorite toe, just to retrieve this authentic artifact and bring it to you!

Own a little, crispy piece of the World of balance today!
