

STARGATE*

Stellar Gateway to the Universe

First, the best brains in the world designed a super spaceship to defend your planet against evil aliens who lusted to conquer it. But the marauders kept coming!

Your new secret weapon: STARGATE, a powerful stellar gateway to the universe. It's the only hope for your beleaguered planet! Once again, you take to the skies in your ship—now fortified with the mysterious cloaking compound, INVISO. With the help of the STARGATE, maybe—just maybe—you can save the last humanoids and wipe out the aliens FOREVER!

PREPARE FOR THE ATTACK

Insert the STARGATE cartridge as explained in your 2600 Video Computer System owner's guide, and turn on your system.

Use Two Joysticks! Plug a joystick controller into BOTH controller jacks for this one-player game. Use the left controller for maneuvering your ship and firing on the aliens.

Use the right controller to activate SMARTBOMBS and INVISO, and to jump to HYPERSPACE. Press the fire button to activate SMARTBOMBS. Move the joystick forward to activate INVISO; move it back to activate HYPERSPACE. If you run out of SMARTBOMBS, pressing the fire button will activate INVISO. Once you run out of INVISO, pressing the fire button will send you into HYPERSPACE.

You can complete up to 100 attack waves in STARGATE. You begin the next attack wave each time you clear the planet of aliens.

Press GAME RESET or the left fire button to begin the attack.

MANEUVERING AND SCORING

The Tricks Up Your Sleeve

You begin the game with three ships, three SMARTBOMBS, about six seconds of INVISO, and enough energy to HYPERSPACE temporarily out of danger—the number of ships and SMARTBOMBS and the amount of INVISO you have left are shown at the top of your screen.

For every 10,000 points you score, you earn another ship, another SMARTBOMB, and more INVISO.

SMART BOMBS destroy all the enemies on a screen. Use your SMARTBOMBS sparingly.

INVISO makes you temporarily invisible for about two seconds. You can still fire while cloaked with INVISO, and anything you pass through will automatically be destroyed.

HYPERSPACE temporarily sends you into space warp—you never know where you'll reappear. Use HYPERSPACE only as a last resort! It's very unpredictable—you might blow up on any given HYPERSPACE attempt.

STARGATES warp you to a part of the planet where a HUMANOID is in danger, or, if all the HUMANOIDS are temporarily safe, passing through a STARGATE will transport you to the opposite side of the planet.

HUMANOIDS are defenseless. Pick up HUMANOIDS by docking with them in the sky. To set them down, gently guide your ship down to the planet surface. The HUMANOIDS will beam to the nearest Humanoid Space Station on the planet. They're still vulnerable while at the Space Station—so you'll have to protect them.

You can also keep the rescued HUMANOIDS with you on board your ship. In attack waves 1 through 9, if you pass through a STARGATE while transporting four or more HUMANOIDS on your ship, you'll automatically advance four waves in the game. You'll also receive **1000** points for every HUMANOID left on the planet.

At the end of attack waves 1 through 5, you receive **100, 200, 300, 400, or 500** points for every HUMANOID left on the planet, respectively. After

the 5th attack wave, you receive **500** points for every **HUMANOID** left.

The Tricks Up Their sleeves

Each alien ship has a different function and mission.

 **LANDERS** fire lethal charges at you. Worse, they also kidnap **HUMANOID**s from the planet below and carry them to the stars above. Shoot **LANDERS** for **150** points each. If one makes it to the top of the screen with a **HUMANOID**, both the **HUMANOID** and **LANDER** are transformed into a destructive **MUTANT**.

 **MUTANTS** are worth **150** points also. The heads of **MUTANTS** rotate, and they flash with bright colors. They also fire white charges at you while they make their assault.

 **YLLABIAN SPACE GUPPYS** are mindless puppets, but they'll home in and destroy you if you're not careful. Pulverize them for **200** points each.

 **FIREBOMBERS** are treacherous. Blast them for **250** points each and get them out of your way early on.

 **PODS** bob around like bouncing balls. Shooting one earns you **1000** points.

 **SWARMERS** are begotten from **PODS**. Once you shoot a **POD**, three **SWARMERS** are released, and it takes three shots to destroy them. Each **SWARMER** is worth **150** points.

 **DYNAMOS** are cubic creatures that swirl around the heavens above the planet surface. Explode them for **200** points each.

 **BAITERS** appear if you take too long to finish off a wave. They fire on you and move fast and furiously. Stop a **BAITER** in its path for **200** points.

 **PHREDS** are no fun. Again, if you waste time during your attack, these nasty creatures join the attack. Frazzle a **PHRED** for **200** points.

 **MUNCHIES** are followers of **PHREDS**. Zap 'em for **50** points each.

ADDITIONAL

MISSION INSTRUCTIONS

- The Scanner on your screen shows you any area on the planet where HUMANOIDs are in danger. Keep an eye on your scanner — it will alert you to any emergencies in another part of the sky. Rush to a STARGATE for immediate transport to that sector.
- Your planet will be destroyed if all the HUMANOIDs are turned into MUTANTS — but you must still defend yourself! If you're a good fighter, your planet will be restored in wave 6, or in every fifth wave after that.
- In attack wave 5 and every 10th attack wave thereafter, you'll encounter the YLLABIAN DOG FIGHT. The only aliens that appear on the screen are YLLABIAN SPACE GUPPYS, PODS, and DYNAMOS. It takes skill and practice to make it through this wave.
- In every 10th attack wave, you'll find yourself in the middle of a FIRE-BOMBER SHOWDOWN: FIREBOMBERS are everywhere. Keep a sharp eye and a nimble firing finger.
- Whenever you lose a ship, you reappear on the screen with a new one (if you have any left). But all action stops until you move the joystick.
- Along with the powers of your super spaceship, you've been blessed with supersonic hearing. You can hear the HUMANOIDs scream as they're being accosted by LANDERS. On your side of the planet, this comes as a faint yelp. The sound of explosions means that a HUMANOID and LANDER have just been transformed into a MUTANT.
